Subject: Region 3 webpage will need update on Friday!

Hello Christine -- I just wanted to give you a heads up that Region 3 will likely be needing a quick update on the Region 3 website for Pennsylvania again tomorrow morning (Friday, May 10). This is needed to update information on well monitoring results in Dimock, Pa. Since work schedules vary on Fridays, could you please give me a point of contact to make this change Friday if you are not available. Thank you. -- Roy
